

## ***À rebours*, roman de la délectation morose**

Publication type: Journal article

Journal: [À rebours, attraction-désastre, Tome I. Attraction](#)

Author: Gendrel (Bernard)

Abstract: *À rebours* presents itself, to take up Kenneth Burke's terminology, as the novel of an attitude, in which action seems almost absent. This attitude, that of the hero, can be compared to *delectatio morosa* from the Catholic tradition. By engaging in aesthetic contemplation to escape his past, Des Esseintes believes he can emulate the hermits of the third or fourth century: in reality, he merely imports his former attitude into his personal "Thebaid."
