

## Louis Meigret grammairien et traducteur face aux emplois prépositionnels locatifs

Publication type: Article from a collective work

Collective work: [Actualités de Louis Meigret, humaniste et linguiste](#)

Author: Štichauer (Jaroslav)

Abstract: The article analyses the conception of “local” prepositions (*in*, *in* and *within*) in the *Tretté* de Meigret. It distinguishes, as the only grammarian of its time, the phrases governing a naked N (*in the cellar*) and a determined N (*in the cellar*). This is a first draft theorization of the distinction between strong and weak locativity that can be observed in modern French (*en cave* vs. *dans la cave*). We then compared Meigret's intuitions with the uses appearing in his translations.
