

Le associazioni dei costruttori e le regole del lavoro in Italia settentrionale tra XIII e XIV secolo

Publication type: Journal article

Journal: [Ædificare](#) *Revue internationale d'histoire de la construction*
2018 - 1, n° 3. *Autorités et réglementations du travail dans le champ de la construction (XIIIe-XIXe siècle)*

Author: Erioli (Elisa)

Abstract: Communities of construction tradesmen in Northern Italy played a significant intermediary role between public institutions, workers, and clients. The interests of the commune were guaranteed by the trade associations; the members of these were provided with equal rights by the community without favoring the richest craftsmen or those who were not registered with it. Ultimately, buyers could be certain of the quality of the material and the work done.
