

Under the protection of the church and the king

Prebends, privileges and contracts of medieval builders in Medieval Spain (11th-12th centuries)

Publication type: Journal article

Journal: [Ædificare Revue internationale d'histoire de la construction](#)
2019 - 2, n° 6. varia

Author: Sánchez Márquez (Carles)

Abstract: One of the remarkable aspects of the study of the construction of cathedrals on the Iberian Peninsula lies in the rich documentation preserved on working conditions during the eleventh and twelfth centuries. This article examines the astonishing series of contracts, benefits granted to builders, and financial and labor contributions from the monarchy, which provide us with details about the working relationship between builders and their works, their social condition, and their status.
