Abstract: In his *Essays*, Montaigne establishes a distinction between particular and public errors. This difference can be understood in light of a political career filled with successes and failures. The *Essays* enabled their author to explain and justify some of these errors. It is even possible to consider the translation of Sebond's *Natural Theology* as a youthful error and the later project to include La Boétie's *Discourse on Voluntary Servitude* in his *Essays* as a political error.
