

## Traitement des collocations dans les dictionnaires espagnols

Publication type: Journal article

Journal: [Cahiers de lexicologie](#)  
2013 - 1, n° 102. Unité en sciences du langage et collocations

Author: Mogorrón Huerta (Pedro)

Abstract: Collocations are linguistic expressions that are not completely fixed. They are representative of each language and are responsible for many problems of language production and comprehension. Despite their importance, they have been little studied in Spanish. The aim of this article is to analyze this kind of expressions in monolingual, bilingual and phraseological Spanish dictionaries. The results show that these resources do not properly process collocations.
