

La distribution des indéfinis négatifs du français

Publication type: Journal article

Journal: [Cahiers de lexicologie](#)
2017 - 2, n° 111. [La sémantique en France : un état des lieux \(II\)](#)

Author: Müller (Claude)

Abstract: Negatives are indefinite items which have a particular affinity for negative contexts, often bearing an inherent negative feature liable to be lost in a context of expressed negation. The concepts of “direct” vs. “indirect” negation successfully renders their contexts of occurrence. The unification of verbal negation can sometimes be blocked either by unwanted semantic effects such as quantification, or by polyphonic oppositions of viewpoints.
