

The French book world at the beginning of the Wars of Religion

Publication type: Journal article

Journal: [Cahiers de recherches médiévales et humanistes - Journal of Medieval and Humanistic Studies](#)
2023 - 1, n° 45. varia

Author: Walsby (Malcolm)

Abstract: The Wars of Religion saw an unprecedented outpouring of polemical material in France. Religious and political issues were expressed through pamphlets that transformed the publishing landscape. This article examines how the events and polemics of the early 1560s allowed new typographical centres to emerge at the expense of the traditional places. It also analyses how the form and codes of the book changed during these years.
