

Tropes of inclination for living on a damaged planet

Thinking clima(c)tic anxiety in the Renaissance

Publication type: Journal article

Journal: [Cahiers de recherches médiévales et humanistes - Journal of Medieval and Humanistic Studies](#)

2023 - 2, n° 46. varia

Author: Goul (Pauline)

Abstract: The article establishes a parallel between the French Renaissance and the contemporary period in terms of climatic anxiety. Employing the figure of inclination, the article identifies several commonplaces of collective engagement with an environment in crisis in both ages and imagines other possibilities of collective rituals to face climate change.
