

Toward a reading of Isidore Ducasse's *Poésies*

Publication type: Journal article

Journal: [Cahiers Lautréamont](#)
2020, n° 2. varia

Author: Saliou (Kevin)

Abstract: Kevin Saliou re-examines the little-known thesis that Michel Pierssens devoted in 1972 to Isidore Ducasse's *Poésies*. This work, inspired by the structuralism that then held sway over the intellectual landscape, sheds light on the internal logic of these collections of maxims.

Pages: 35 to 42
