

## Confiance, bonne foi, fidélité

La notion de *fides* dans la vie des sociétés médiévales (vi<sup>e</sup>-xv<sup>e</sup> siècles)

Array

Array

Abstract: With the meaning of trust, good faith and respect for promises made, protection, or assistance, *fides* in the non-exclusively religious sense of the word comes from the demand for ethical perfection: as such, it is omnipresent in human relations and in the dynamic of societies in the Middle Ages.
