

## Contes et nouvelles en vers

Publication type: Book

Author: La Fontaine (Jean de)

Scientific editor: Couton (Georges)

Abstract: By the eminent author of the *Fables*, the *Contes* are less well known. With them, however, another facet of La Fontaine comes to light. Would that be La Fontaine the libertine? Without a doubt. But with a falsely joyous sensuality, with all the subtlety and spirit that define him.
