

## Analysis of discourse strategies

Politics and deixis

Publication type: Journal article

Journal: [Des mots aux actes](#)

[2020, n° 9. Traductologie et discours : approches théoriques et pragmatiques](#)

Author: Darias-Marrero (Agustín)

Abstract: The analysis of political discourse dealing with the economic crisis in Spain reveals a wide range of discursive strategies in which deixis plays a crucial role in the construction of political speech. Here the speaker is presented from a clearly positive perspective that favours the construction of a positive self-image and political ideology as compared to that of his adversary, whose legitimacy is systematically delegitimized in partisan speech.
