

Schleiermacher and the question of translation

Publication type: Journal article

Journal: [Des mots aux actes](#)
[2021, n° 10. Traductologie, philosophie et argumentation](#)

Author: Berner (Christian)

Abstract: In his essay « On the Different Methods of Translating », Schleiermacher applies the principles of his hermeneutics, ethics and dialectics. Translation is a special case of understanding. The thought that governs language is the domain of translation which is also a form of interaction between the individual and the universal where the spirit is accomplished in its historical becoming. And its completion lies in dialectics as the art of scientific discussion.
