

L'Atlas Linguistique des Petites Antilles (ALPA)

Premières approches géolinguistiques des aires lexicales, phonétiques et morphologiques

Publication type: Article from a collective work

Collective work: [Du français aux créoles. Phonétique, lexicologie et dialectologie antillaises](#)

Authors: Le Dû (Jean), Brun-Trigaud (Guylaine)

Abstract: This article studies maps illustrating the spread of lexical, phonetic, and morphological features in the *Atlas linguistique des Petites Antilles*. These include similar features used across all the islands; others which bring out particularities common to the northern islands and those of the south, or even to the centre in relation to the margins; certain features particular to each of the islands; and finally the apparently arbitrary distribution of certain features.
