

Les climato-sceptiques sont-ils sceptiques ?

Le doute, entre science et politique

Publication type: Journal article

Journal: [Éthique, politique, religions](#)
2014 - 2, n° 5. [Scepticismes en politique](#)

Author: Larrère (Catherine)

Abstract: Is climate-scepticism a consequence of the entry of scientific developments and technological innovations in public debate? Doubt is no longer simply a tool or motor of scientific research; it is increasingly instrumentalized for ideological rabble-rousing and political action. In view of this, I will analyse so called « eco-scepticism », doubting the reality of the environmental crisis, and more specifically doubting climate change and its human origin.
