

Artificial intelligence and processes of naturalization and artificialization

From structural illusion to ideology?

Publication type: Journal article

Journal: [Éthique, politique, religions](#)

2023 - 1, n° 22. [L'éthique de l'intelligence artificielle à travers les dispositifs et les pouvoirs](#)

Author: Favier-Baron (Eugène)

Abstract: AI hides many human mediations in its conception as well as in its reception. However, everything happens as if the user was in contact with a pure otherness, a myth that the recent revelations on the human outsourcing that was necessary for the functioning of the conversational "agent" Chat-GPT3 have hardly dented. This article aims to set out avenues that may shed light on the characteristics and motivations of such a structural illusion.
