

## Les lectures de jeunesse de Sartre

Publication type: Journal article

Journal: [Études sartriennes](#)

Author: Dassonneville (Gautier)

Abstract: Creating the list of Sartre's loans from the ENS Library has revealed a cultural horizon with its regions, its obligatory passages, and its crossroads. This previously unpublished list shows, in fragmented form, a portrait of Sartre as a curious and insatiable reader who was able to take advantage of the assets from a library elevated to the level of instrument of scientific excellence by Lucien Herr.
