

Sectoral evolutions and economic development in China since the reform

What place for services?

Publication type: Journal article

Journal: [European Review of Service Economics and Management](#) *Revue européenne d'économie et management des services*
2022 - 2, n° 14. varia

Author: Delaunay (Jean-Claude)

Abstract: China's contemporary development is based on the two pillars of material production and of services, which now constitute the majority of economic activities. To describe this evolution after 1978 (the year of the Economic Reform launch in China) within the framework of Marxist theory, the author proposes a functional classification of services as an extension of his works on "civilization goods".
