

Can mathematics think genre?

Alain Badiou and Forcing

Publication type: Article from a collective work

Collective work: [Genre, Text and Language. Mélanges Anne Freadman](#)

Author: Clemens (Justin)

Abstract: This paper takes up the challenge to genre theory recently adumbrated by the philosopher Alain Badiou in a sequence of major philosophical treatises, notably *Being and Event*, published in 1988. In this work, Badiou deploys set-theoretical mathematics, from Georg Cantor to Paul Cohen, for a new definition of genre.
