

Kant, le premier cercle

La déduction transcendantale des catégories (1781 et 1787)

Publication type: Book

Author: Séguy-Duclot (Alain)

Abstract: This book studies the occurrence (or not) of a case of circular reasoning in Kant's attempt to establish the foundation of knowledge. The response to this question instigates a commentary on the transcendental deduction of the categories, which lie at the heart of the *Critique of Pure Reason*, in both the 1781 and 1787 editions.
