

L'Autre Monde ou les États et empires de la lune et du soleil

Publication type: Book

Author: Cyrano de Bergerac

Preface writer: Lachèvre (Frédéric)

Abstract: Combining literary fantasy and intellectual subversion, these two stories offer an original contemplative framework, calling into question the place of modern man in a universe whose reference points have been turned upside down by the discoveries of Copernicus. The rich descriptions of the worlds visited and the machines invented charm the reader's imagination.
