

L'Érotisme dans la littérature espagnole du xvi^e siècle

Étude des continuations de *La Célestine*

Publication type: Book

Author: Guerry (François-Xavier)

Abstract: This book explores eroticism in the six sequels (1534-1560s) of Fernando de Rojas' (1499-1502) *La Celestina*, a true *best-seller* of 16th-century Spanish literature. From this angle, the literary investigation calls for a global reassessment of this long-discredited literary cycle.
