

Construction History in the Netherlands

Publication type: Article from a collective work

Collective work: [L'Histoire de la construction / Construction History. Tome I. Relevé d'un chantier européen / Survey of a European Building Site](#)

Author: Van de Vijver (Dirk)

Abstract: For the first time in this country, an analysis of the history of construction has been carried out along three axes: general publications on established knowledge in engineering, architecture, and urban planning; the institutions providing research in the field; and the questions noted or explored in terms of the history of engineering, establishing sources, architectural designs, economics, and construction law.
