

## L'archéologie de la construction

Essai de définition

Publication type: Article from a collective work

Collective work: [L'Histoire de la construction / Construction History. Tome II. Relevé d'un chantier européen / Survey of a European Building Site](#)

Author: Dessales (Hélène)

Abstract: This article defines the principles of the archeology of construction, in the context of a larger study dedicated to the water tower of the Porta Romana in the Ostia Antica. It proposes to apply it to the study of hydraulic monuments of the Roman era, after presenting the current state of studies dedicated to Roman building techniques.
