

L'Homme-machine

Publication type: Book

Author: de La Mettrie (Julien Offray)

Scientific editor: Gonzalez (Solange)

Abstract: In *The Man-machine* (1751), the analogy of the human body and the animal body with a machine loses its status of physiological thesis – founded on metaphysics and physics – to form a materialistic, antiChristian argument and begin a dialogue with that tradition.

Number of pages: 224
