

L'économie des plaisirs dans l'économie mondialisée

Ou l'impossibilité du don

Publication type: Article from a collective work

Collective work: [L'Unité de l'œuvre de Michel Houellebecq](#)

Author: Bousquet (Louis)

Abstract: Houellebecq describes a hedonistic economy which introduces a capitalist model into people's lives and makes real human relations impossible. Closely following the workings of this new type of mercantilism, we will find the conditions leading to such failure and discover how they contribute to the moral decline of his characters.
