

## La Fabrique du roman classique

Lire, éditer, enseigner les romans du xvii<sup>e</sup> siècle de 1700 à 1900

Publication type: Book

Author: Esmein-Sarrazin (Camille)

Abstract: The eighteenth-century parnasses established a set of topics concerning the seventeenth-century novel. After the Revolution, the canon was confirmed by literary history; a normative vision of poetics confers an exceptional place to Madame de Lafayette and seeks to define a “classic novel.”
