À propos d'écologie : Nietzsche, Bataille et les autres...

Publication type: Article from a collective work

Collective work: [La Part maudite de Georges Bataille. La dépense et l'excès](#)

Author: Warin (François)

Abstract: How could some thinkers discussing political ecology claim filiation to the "General Economy" of Georges Bataille ? Isn't he the philosopher of all excesses, unrepentantly embracing Nietzsche, and to all appearances a living refutation of all prophecies of limitation, restriction, austerity... whose thinkers should rather be the subject of a new *Généalogie de la morale* ? The article is dedicated to these questions, the most critical to mark our century.
