

La Perception, entre cognition et esthétique

Publication type: Collective work

Editors: Bruzan (Adinel), Chevalier (Jean-Marie), Mocan (Raluca), Vicovanu (Roxana)

Abstract: Perception has a two-fold nature: it lets us know the world and also establishes a relation of (dis)pleasure with appearances. This interdisciplinary study seeks to illuminate the interactions which, situated between the cognitive and the aesthetic, are deployed in perceptive experience.
