

La Vieille Fille

Publication type: Book

Author: Balzac (Honoré de)

Scientific editor: Castex (Pierre-Georges)

Abstract: *La Vieille Fille* offers a new image of the single woman. The desire for succession torments Rose-Marie-Victoire Cormon as much as carnal desire. The confrontation between the three suitors makes it possible to paint the rivalries in a provincial city during the Restoration. This substantial edition reveals Balzac's anthropological gaze.
