

Las palabras del poder

La lengua española en Italia en el siglo XVI

Publication type: Article from a collective work

Collective work: [Le Choix du vulgaire. Espagne, France, Italie \(XIII^e-XVI^e siècle\)](#)

Author: Lefevre (Matteo)

Abstract: With the progressive Spanish occupation of Italian territories from the fifteenth century onwards, the Castilian language became not only a code in Italy but also a tool for managing power between the Italian and Spanish nations. Throughout the course of the sixteenth century, Spanish became the “language of empire”, a language which had a great political force and was indispensable in relationships between the two societies.
