

Le Miroir des désillusions

Les Juifs de France et l'Italie fasciste (1922-1939)

Publication type: Book

Author: Guedj (Jérémy)

Abstract: In the interwar period, French Jews saw Italy as the birthplace of a veritable model of integration, despite it being in the hands of fascists. But the increasing danger shattered their certainties. An analysis of the paradoxes and illusions of this "Italian moment" offers a fresh approach to the question.
