Author: Finniss-Boursin (Françoise)

Abstract: Dictionaries would be useful to explain difficult concepts about democracy. Some words, such as democracy, secularity, islam, islamic, islamist, communautarism, "islamist hydra" often used in public debates, would become clearer if people looked up in a dictionary. But there are other ways to find the proper meanings of these kinds of words: discussions in the media, explanations of historians or leader writers.
