

Les Contes et nouvelles en vers de La Fontaine

Licence et mondanité

Publication type: Book

Author: Bermann (Mathieu)

Preface writer: Leplatre (Olivier)

Abstract: The poetic license of the *Contes* is due less to subversion than to a special dispensation granted by their fashionable readers. This poetry is situated at the boundary between what is permissible and what is forbidden; it reflects an ironic classicism towards its own codes and rests on collusion with the reader.
