

Les Ingénieurs des États de Languedoc

Construire en province au XVIII^e siècle

Publication type: Book

Author: Isaac (Catherine)

Preface writer: d'Orgeix (Émilie)

Abstract: This book deals with the civil engineers serving the États (local assembly) of Languedoc, in the south-west of France during the eighteenth century. This study presents the history, the expansion, the achievements, the technic, the construction process and the men of this engineering corps.
