

***La Servante* and the education of women**

Louise Colet, a Romantic in social realism

Abstract: *La Servante*, a poem and a plea against the submission of women to the traditional stereotypes that Romantic ideology had reinforced, undermines the foundations of a society whose tranquility was built on its subjugation of all minors: children, women, the insane, the poor. . . . Only women's access to education and work could lead them to freedom. Is this Louise Colet being a true feminist?
