## BIBLIOGRAPHIE

### OUVRAGES CITÉS PAR ALFRED MARSHALL DANS *MONNAIE, CRÉDIT ET COMMERCE*

Alfred Marshall ne propose pas de bibliographie dans son livre. Mais il cite explicitement certains ouvrages (160), quelque fois avec une date de référence. D'autre fois, il s'agit de références implicites. Dans ce cas, le choix des titres repose sur le contexte. Cette bibliographie, ici proposée, est donc une bibliographie reconstituée qui permet de rendre explicite les références faites. Quand Alfred Marshall ne fait référence à aucune date, c'est toujours l'édition originale qui a été choisie.

Alfred Marshall does not provide any bibliography in his book. But he explicitly quote many works (160), sometimes with a reference date, sometimes, with implicit references. In this case, the choice of titles of the works is based on the context. Therefore, this bibliography is a reconstituted bibliography which objective is to render explicit the references. When Alfred Marshall does not refer to any date, the original edition has always been choosen.
