

## Émergence et traitement des métaphores terminologiques dans les dictionnaires

Publication type: Journal article

Journal: [Neologica](#)  
2014, n° 8. [Revue internationale de néologie](#)

Author: Rossi (Micaela)

Abstract: This paper aims at describing the lexicographical treatment of metaphorical terms in French. We will analyse how terms such as *cordes* ('ropes', in string theory), *hélice* ('propeller'), *nain* -('dwarf'), which are common language words that acquire a specific meaning in specialised discourse, are integrated into general language dictionaries such as *Petit Robert* or *Larousse*.
