

Borrowing and indigenous neologisms

A comparison of their respective places and their reception

Publication type: Journal article

Journal: [Neologica](#)

[2020, n° 14. Perception, réception et jugement des néologismes](#)

Author: Sablayrolles (Jean-François)

Abstract: The position of borrowing among lexicon-expanding processes varies – it may be included, excluded or unmentioned. A binary opposition between language-internal processes and borrowing is to be preferred to the traditional division (formal processes, semantic processes, borrowing). External influence is also exerted through other means than borrowing – one needs to distinguish between xenisms, peregrinisms and statalisms. This article classifies these units and analyzes how they are accepted.
