

La réalisation des remerciements dans les *Manières de langage*

Publication type: Article from a collective work

Collective work: [Nouvelles voies d'accès au changement linguistique](#)

Author: Denoyelle (Corinne)

Abstract: The speech act of thanking depends on a strict social hierarchy and goes from the subordinated speaker to the superior one. Its formulation involves the substantive *merci* or the verb *mercier* in syntactic constructions that are not yet grammaticalized, or through wishes and religious formulations which mix thanking and salutations.
