

Pragmaticalisation parallèle des marqueurs discursifs

Une approche du français oral des époques plus anciennes

Publication type: Article from a collective work

Collective work: [Nouvelles voies d'accès au changement linguistique](#)

Author: Haßler (Gerda)

Abstract: The process of pragmaticalization allows discourse markers to establish relations between utterances. If we look at the function of these elements' etyma in Latin (classical as well as non-classical), then we can observe a use of these particles similar to that found in present-day French.
