

Le dediche di Nicola Trevet

Il posto della storia

Publication type: Article from a collective work

Collective work: [Pratiques latines de la dédicace. Permanence et mutations, de l'Antiquité à la Renaissance](#)

Author: Crevatin (Giuliana)

Abstract: Nicolas Trevet dedicated most of his works to personalities of the papal Curia of Avignon and the court of England. The dedication of his *Annals* shows that his thorough knowledge of Livy, of whom he was the first commentator, sometimes allowed him to free himself from the formal conventions which characterise universal chronicles.
