

Pour qui écrit Tite-Live ?

Publication type: Article from a collective work

Collective work: [Pratiques latines de la dédicace. Permanence et mutations, de l'Antiquité à la Renaissance](#)

Author: Franchis (Marielle de)

Abstract: Livy's Preface is here interpreted referring to the dedication of a monument. Indeed, the presence of the gods does not amount to an epic allusion : it is necessary to the inauguration of a *monumentum* that the historian sets out for his readers, by which he makes history accessible to a community resulting from the extension of citizenship to the whole of Italy.
