

Les leçons de stylistique appliquée de Julien Sorel

Publication type: Article from a collective work

Collective work: [Relire *Le Rouge et le Noir*](#)

Author: Bordas (Éric)

Abstract: For Julien Sorel, style creates an opposition between those whose master social codes and those who fall victim to them. This is the same for Stendhal: his reluctance to employ a noble and excessively “written” style exceeds the question of aesthetics and suggests a political conception of communication.
