Abstract: This article presents manuscript FR-2422, digitized in image mode on Gallica, and in XML with TEI encoding on the site <http://www.licorn-research.fr/>. The manuscript, attributed to Regnier-Desmarais, brings a new perspective to the marionette play *Polichinelle demandant une place à l'Académie* as well as the literary quarrel that ensued. Implicitly, it reads as a defense of academic freedom and more broadly the autonomy of the intellectual in relation to power.
