

Traduire le *Livre de Jonas*

De Lefèvre d'Étaples à la version révisée de Genève (1530-1588)

Publication type: Book

Author: Monge-Strauss (Marie-France)

Preface writer: Gomez-Géraud (Marie-Christine)

Abstract: Thirteen editions are compared with each other then brought to bear on the reference Hebrew text. This study is conducted along two axes: examining the *items*, then the authors. Going beyond the philological approach, this research opens onto the question of the relationship between the humanist world and Jewish culture.
