

## Le « drame de Metz »

Villers et Madame de Staël

Publication type: Article from a collective work

Collective work: [Un homme, deux cultures. Charles de Villers entre France et Allemagne \(1765-1815\)](#)

Author: Bernard (Monique)

Abstract: Charles de Villers's merit was a long time overshadowed by Mme de Staël's glory. This study of their correspondence aims to shed more light on their only, but for both very important, meeting in Metz in 1803 and in particular their psychological circumstances, which was mostly ignored in the previous studies. So the author has good reasons to claim that Villers's influence on Mme de Staël's well-known book *De l'Allemagne* is deeper as recognized until now.
